## Have you done everything you can to safeguard your family's financial future?

Do you have a plan to protect, distribute and transfer your assets? Do you want to increase your knowledge of estate planning and end-of-life issues? Do you want to learn how to safeguard your family's financial future?

A large proportion of Americans die without a will or an advance health care directive. Numerous people just never get around to making specific legal arrangements to protect their survivors. Some people don't want to discuss end-of-life issues with family members. Many people do not make arrangements because they believe:

- The property will automatically pass on to heirs without complications
- Assets have to be of a certain size before the heirs will be affected by a tax liability
- Falsely believe estate planning is not important for young parents
- Costs of preparing wills and important documents is too expensive to make it worthwhile

**"Secure Your Future"** will help you take major steps to safeguard your family's inheritance. The program teaches individuals about the importance of evaluating legal matters related to later-life issues.

There will be no sales or marketing of  
products or services.

### Class 1: Organize Your Important Papers

Participants will learn the kinds of personal information to gather, organize and store so that family members can easily access them.  
Instructor: Beverly Healy, Extension Educator

#### Advance Health Care Directives

Understand the importance of Advance Directives: Living Will and Durable Power of Attorney. Instructor: Kim Martz, Idaho End-of-Life Coalition.

### Class 2: Prepare: Advice from an Attorney

Participants will increase their knowledge of estate planning and end-of-life issues – wills, probate, trusts and how property is titled.  
Taught by attorney Allan Bosch, Boise .

**September 21 and 28 - Boise**
